POSTURE HARNESS

Prevents back pain

Designed for every profession presenting difficult working conditions

Context

Result : loss of motivation, disorganization, reduced performance...

The HAPO reduces back and lumbar musculoskeletal disorder (MSDs): low back pain, herniated disc...

Designed for every profession with difficult working conditions!

For who?

The HAPO is for all the people requiring back assistance and/or for those working causes back pain. We can find these situations in all sectors.

It reduces low back effort and preserves the intervertebral discs regardless of the posture:

- In static flexion, physical assistance is provided as soon as the back forms an angle higher than 5°.
- In dynamic flexion, it assists the back muscles in straightening the upper body.

Accessible to all : men and women

Available in several sizes, the HAPO fits over **98 % of the people.**

-fits 98% of the people
-suitable for women
-3 sizes available

100% Made in France

in our workshops

How does it work?

The posture harness springs are made of composite materials. Thanks to a system that does not transfer the load to the shoulders or compress the spine, the HAPO is a real innovation in the field of physical assistance devices.

Helps to keep a good posture.

Light and close to the body:
Sitting, walking, taking the stairs...

Easy to use:
You can put it on in 20 seconds like a backpack.

Efficient:
The relative assistance power is 14kg adaptable.

Intuitive:
Easy work-deployment.

Affordable :
Best cost-efficiency ratio of the market.
